## ABOUT US

Harroun Designs is a Certified Veteran Owned Small Business located in Pittsburgh, PA. We dissect the complex environment and make it easy to navigate, translating the principles of wayfinding into practical application.

We work with architects, interior designers, sign shops and sign design firms with comprehensive sign planning, message schedules, location plans, technical drawings, budgeting, project management, vendor coordination, building code & ADA compliance reviews and more!

Steve Harroun proudly volunteers for a number of organizations in a variety of capacities. Notably, he serves his fellow residents of Pleasant Hills, PA as a Planning Commissioner and was elected to serve on the Board of Directors for the International Sign Association, the largest professional organization for the signage industry that shapes and develops the sign, graphics, and visual communications community worldwide.

Steve is a subject matter expert on the regulations and laws that relate to signage, including Building Code (IBC), Fire Code (NFPA), ANSI A117.1, Department of Health, ADA / ABA Federal Law, OSHA, and Joint Commission.
